Young Adult programs are available
for Grades 1 to 12 and Young Adults

Part-time Programs at the Eaton Arrowsmith School for students with learning disabilities/differences and ADHD

For Students with Learning Disabilities

**Strengthening Learning Capacities
For Your Child's Lifetime**

The Eaton Arrowsmith School is currently going into its fourth year of operation in Vancouver. Since opening our doors in September of 2005, we have been very successful in strengthening learning capacities for students with learning disabilities/differences in order to enable our students to reach their potential in the classroom. A sampling of some of the learning capacities that we can increase with the Arrowsmith Program:

- **Written Output (Copying notes off of the board)**
- **Reading Comprehension and Problem Solving**
- **Auditory Processing**
- **Social Skills and Organization/Planning**
- **Focus and Attention**

We offer part-time programming to enable students with different learning styles to maximize their potential in the classroom without interfering with their current school schedule. Our convenient programs have two different delivery methods to suit your needs. The cognitive changes that the Arrowsmith program offers are LIFELONG.
